[GOLD KING mine.pdf](#)  
[GoldKingMine-diagram.jpg](#)

Original (pdf) and updated (jpg) are attached.

Here's the changes we made:

"Please delete entirely the top view portion.

For the front view:

- Between the existing dump and flume up to Assumed water level, please add blue cross hatching of some kind to show indicate water.
- 10 ft max just means the width and height of the tunnel. Can you make that more clear?

For the side view:

- Crosshatch to the right of the unconsolidated material to the tunnel floor, to show water level
- The profile of the mountain cross section on the left is good, but we want that to carry up and over to the right, and colored in to more clearly show the mountain and give the viewer some better perspective.

Let's add definitions of the terms at the bottom. Please get those from the EOC or OSWER."

Hi, Steve.

Joyce sent me this draft diagram for David's presentation this afternoon. Per Joyce's instructions, we are not going to include it unless we have your approval. Please let me know if

you approve or if you have any edits. EPA HQ is reviewing concurrently.

Thanks!

Cynthia

Hi All,

Please find attached the drafted version of the EPA working assumptions drawing for the Gold King Adit. Please let us know if there are any questions.

Thank You All,

Elliott petri
